Free and Reduced Meal Regulations

Elmbrook School District assures that the school system will uniformly implement the Federal policy to determine student's eligibility for free and reduced price meals in all National School Lunch Program and School Breakfast Program schools. In fulfilling its responsibilities, the Food and Nutrition Department agrees to serve meals free or at a reduced price to students from families whose income is at or below the free or reduced price scale of the Income Eligibility Guidelines and that there will be no physical segregation of, nor discrimination against any student because of his/her inability to pay the full price of the meal. **A new application must be submitted each school year.** Application forms for the free and reduced price meals and eligibility requirements will be included in the registration packets at each school in the beginning of each school year. Applications can also be downloaded from the Elmbrook School District website and are available throughout the school year. Forms can be turned into the school office. If denied, families may reapply whenever the family income or family size changes.

Payment

School meals may be prepaid by either check or cash. Checks are strongly encouraged and should be addressed to Elmbrook Food and Nutrition Department. Students will be alerted when their accounts are low.

Parents also have an option of paying for student meals in advance through the automatic payment system @ www.mealpayplus.com. This website may also be accessed through the Elmbrook School District website, under the "Food Services" tab. Online payments are generally posted to your student's accounts within one hour.
