^Note: Outlier score fluctuation is noted by ^ when any school or district report card has a 10-point or greater change (up or down) in its Overall Score. This amount of change in a single year is considered an outlier, and may or may not be reflective of actual school/district change in performance. Careful and cautious review of the report card and all supplemental pages is recommended. For assistance in better understanding this report card, contact the Office of Educational Accountability: reportcardhelp@dpi.wi.gov.

Notes
- Details on student achievement calculations can be found at https://dpi.wi.gov/accountability/resources .
- Student Achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students in all tested grades in the district.
- Scores are based on student performance on WSAS mathematics and English language arts statewide assessments.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

District Report Card Detail | 2017-18 | District Growth

District Growth   # Total Score: 65.1/100

The following growth scores are derived from a value-added model. Value-added growth estimates how much student scores are expected to change based on actual growth of similar students. It then compares the change in the student's scores to that estimate. If the student's performance improved more than predicted by the model, we say her district had high value-added. That is, the district's impact on student learning resulted in higher-than-predicted growth.

English Language Arts Growth Score: 30.2/50   Mathematics Growth Score: 34.9/50

Group	English Language Arts		Mathematics

District Growth Supplemental Data

Group performance provided in the table below is for informational purposes only. Supplemental value-added scores are calculated when 10 or more students are included in a group.

Group	English Language Arts		Mathematics

Economically Disadvantaged	230	2.7	230	3.0
English Learners	210	3.0	210	2.9

*Note
Counts will display for districts with 10-19 students in a group, but they are not included in scoring, as the cell size rule for report cards is 20 students or more.

Growth scoring requires at least two consecutive years of test scores. Up to four years of test data on three growth intervals are used in the calculation, when available, to improve the validity and reliability of value-added calculations.

Closing Gaps   Total Score: 86.2/100

Notes - Prior Three Pages

• Details on Closing Gaps calculations can be found at https://dpi.wi.gov/accountability/resources .

• Closing Graduation Gaps is based on graduation data from prior years because data from the most recent year are not yet available. For graduation calculations, prior-year data are the most current.

• The points-based proficiency rate is calculated by multiplying the number of students with scores in the advanced category by 1.5, proficient by 1.0, basic by 0.5 and below basic by 0.0.

• The ount of students for achievement calculations can be found in the Achievement Priority Area of the Report Card.

• If the group's average points-based proficiency rate or graduation rate is greater than or equal to 0.9, the rate of change is adjusted to be equal to the rate of change that would earn the maximum score for that group. This will be indicated on the report card by the symbol "!". This is to ensure that districts with very high achievement or graduation are not penalized with low Closing Gaps scores for small increases in gaps.

• In 2015-16 two new race/ethnicity categories were added: "Native Hawaiian or Other Pacific Islander" and "Two or More Races". Closing Achievement Gaps results for these categories will be calculated as data become available.

• Beginning on 2016-17 report cards, each subgroup included in Closing Gaps calculations is compared to its statewide comparison group using the same number of years of data. For example, if three years of data are available to determine the trend for the students with disabilities subgroup, three years of data are included in the statewide comparison group trend for students without disabilities.

About Supergroups

Supergroups are a way to look at closing gaps among groups of students that would ordinarily be too small to include. A supergroup is made up of all the students that belong to any of the groups in the supergroup:

  • "All 3" Supergroup: students with disabilities, economically disadvantaged, and limited English proficient students.
  • "SwD-ECD" Supergroup: students with disabilities and economically disadvantaged students.
  • "SwD-LEP" Supergroup: students with disabilities and limited English proficient students.
  • "ECD-LEP" Supergroup: economically disadvantaged and limited English proficient students.

A supergroup is used to evaluate Closing Gaps only when there are fewer than 20 students in each of the individual groups within the supergroup, but more than 20 students in the supergroup. For example, if a district had fewer than 20 students with disabilities and fewer than 20 economically disadvantaged students, but more than 20 students when those groups are combined, the "SwD-ECD" supergroup would be used to evaluate Closing Gaps. Students are not double-counted in a supergroup. In the example above, an economically disadvantaged student with a disability is only counted once in the supergroup.

• Details on On-Track and Postsecondary Readiness calculations can be found at https://dpi.wi.gov/accountability/resources   .
• Due to data availability, Attendance and Graduation data are lagged by one year. For this year's report cards, On-Track and Postsecondary Readiness calculations use these data from the prior school year.

Notes
- Details on On-Track and Postsecondary Readiness calculations can be found at https://dpi.wi.gov/accountability/resources   .
- 3rd Grade English Language Arts and 8th Grade Mathematics Scores are determined in the same way as the Student Achievement Priority Area. However, if there are fewer than 20 students in the most recent year, then the most recent two years of data are combined so that the cell size requirement is met.
- Student achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

District Report Card Detail | 2017-18 | Student Engagement Indicators

Student Engagement Indicators   Goals Met: 2/2

Both one-year and three-year rates are considered for Absenteeism and Dropout rates. If either the one-year or three-year rate meets the goal then no points are deducted. The three-year rate is based on two years of data when three years are not available.

Indicator	Goal	One-Year District Rate	Three-Year District Rate	Points Deducted
Absenteeism Rate	Less than 13%	1.7%	1.2%	0
Dropout Rate	Less than 6%	0.0%	0.1%	0

Student Engagement Indicators and Test Participation Data

All districts are expected to meet Student Engagement Indicator goals for Absenteeism and Dropouts rates. The overall accountability score is reduced by five points if the Absenteeism Rate goal or Dropout Rate goal is not met. Absenteeism Rate is the percent of students who are chronically absent (absent at least 16% of the time).
