

Elmbrook Little League Registration is Open (Early Bird Rates End @ Midnight, Jan. 14th!)

Did you know that if your child (*now covering ages 5 through 16*) is enrolled at a school in the School District of Elmbrook, they are eligible to play in the Elmbrook local chartered Little League? To some of you that are already involved, this comes as no surprise but we wanted to make sure all were aware and that you know the registration is open and filling fast!

Little League is an international organization that charters community leagues that provide a safe and community based opportunity to have fun and learn how to play competitive baseball. The ultimate goal being the opportunity to win their way to Williamsport to play for the **Little League World Series!**

As stated previously, your school, and anyone who attends it, is within the boundary of the Elmbrook Little League. In order to allow for children who attend school together to play together, Little League allows anyone who lives within our league boundary **OR** attends school within the boundary to participate in this league. Please double check your eligibility on the **League Finder app** which can be found on the homepage of Little League International, www.littleleague.org

As mentioned above, registration for the **2019 EBLL Season** is now open. If you're ready to take the next step from recreational baseball, or just want to start on the right path, please visit our website at www.ebll.org and see the Registration tab for details. Keep in mind that in order to gather numbers and properly plan for the season, there are incentives to register before Midnight January 14th and Midnight February 14th.
