5:00-6:00 pm	Dinner served by Jakes

Your Dollars Will Support...

Funds raised at the 5th Annual Elmbrook Open Golf Outing will be used to support Elmbrook Education Foundation initiatives along with the LAUNCH Program. The focus of support for LAUNCH is to help fund the two new start-up strands in Medicine and Healthcare and Biomedical Solutions. This request supports the learning space development for these new strands which will be located at Brookfield East High School. Funding these strands will help create a real-world laboratory space that mirrors what you will find in healthcare and research and design environments. The space would support both patient-centered and research-centered student projects. These strands will be open in the fall of 2019 to students from both Brookfield Central and Brookfield East. Early student interest is incredibly high and these strands look to be the most popular within the LAUNCH program.

To learn more about the LAUNCH program visit:
www.elmbrookschoools.org/launch
